Fossils dating 385 million years old were found beneath a quarry in Gilboa, New York making the Catskills the oldest known forest on Earth.

PHOENICIA DINER

Built in 1962 and moved to the Catskills in the early 80s, the Phoenicia Diner has a long history of serving customers who are drawn to the Catskills' natural beauty.

The prior owners nurtured the Diner and its customers for nearly 30 years. Current owner, Mike Cioffi, and his staff happily continue that tradition. Along with friendly service, the Diner offers classic dishes, sometimes with a twist, using seasonal and fresh ingredients that are sourced largely from Catskill and Hudson Valley Farms.

EXTREME TUBING

Most people think of tubing as a relaxing float down the river. In Phoenicia you can rent a tube and take a 2 hour trip down the most extreme white water the Esopus has to offer.
